Passionate and solution-oriented full-stack developer, certified by General Assembly's intensive Coding Bootcamp, equipped with a comprehensive foundation in both front-end and back-end web technologies. I am seeking to utilize my strong problem-solving abilities and technical skills to secure and excel in an entry-level developer role.

## EDUCATION

### General Assembly

Software Engineering Immersive | Completed 2022

Completed the Full-stack Software Engineering Immersive course in an intensive, 12-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

Continued learning through **Udemy**.

### Farmingdale State College

Bachelors of Science in Criminal Justice (B.S.) | Completed 2016

HTML  
CSS  
Bootstrap  
Tailwind  
React  
Angular  
Node.js  
Express  
MongoDB  
SQL  
Git  
Visual Studio Code  
PostgreSQL  
Agile

## PROJECTS / EXPERIENCE

### MyBudget

An innovative way to track and follow your monthly budget.

- Implemented **Django** and **Python** to easily input your monthly budget and purchases, as well as edit or delete the budget in case of a mishap.
- Styled pages using **Bootstrap** and CSS, as well as incorporating some JavaScript.
- Designed a user-friendly approach to make it fast and easy for all ages.

### GoodVibes Betting

Giving the sports lover a competitive edge.

- Created a translator application making fetch calls to an **API** for sports odds.
- Used **React** to serve the front-end with Javascript methods and functions.
- Styled and created the visual aspects using **HTML** and **CSS**, as well as implementing **Bootstrap**.

### RecipeBOX

Put your meal plans on shuffle.

- Inspired by social media algorithms, developed a simple and easy way to generate new meal ideas by making fetch calls to an **API** and grabbing different types of food recipes.
- Styled application using a mixture of **CSS** and **Bootstrap**

## WORK

### Appliance World

Warehouse Associate | 2023 – Current

Manage the receipt, storage, and organization of incoming appliances and inventory. Maintain accurate inventory records through regular cycle counts and audits. Assist in the preparation and fulfillment of customer orders, including picking, packing, and dispatching appliances. Operate forklifts and other warehouse equipment in compliance with safety protocols. Ensure the cleanliness and organization of the warehouse, following best practices for safety and efficiency.

### Home Depot

Customer Service Associate | 2022 – 2023

Assisted customers with product inquiries, locating items, and offering recommendations. Handled customer transactions at the cash register, including processing sales, returns, and exchanges accurately. Resolved customer complaints and issues promptly, ensuring a positive shopping experience. Collaborated with other team members to achieve store goals and enhance customer satisfaction.

### Ray the Plumber

Plumber | 2019 – 2022

Responded to multiple plumbing emergencies per shift, including water leaks, drain stoppages, no hot water/heat. Trained 2 new hires and apprentices each quarter on basic plumbing practices and strong communication practices with customers. Collaborated with a team of 2-5 to complete big jobs in a timely manner. Ensured the work area in the customer's home was cleaned and sanitized.

Additional experience and references upon request.
